We have 2 hands

twinkl

with 4 fingers

and 1 thumb on each hand

twinkl

Usually our hands do good things like the washing up

or gently petting an animal,

sometimes we might use our hands to bake a tasty cake.

There are times we may use our hands to do naughty things that make people sad,

twinkl

such as pulling a friend's hair

or pushing someone.

twinkl

when our hands do naughty things, it can hurt people and make them very sad.

Then we can get told off,

and out friends won't want to play with us.

so we need to make sure that our hands always do good things.
Like doing the washing up,

or petting animals,

or baking a tasty cake.

Remember that our hands must be kept to ourselves.

Then everyone will be happy and our friends will still play with us.

And our teachers and family will be really happy with us.
