

**1B VOCABULARY: jobs; work**

I'm looking for ...

**You are a mechanic.**

- 1 You are interested in changing career and becoming a chef. You're looking for a chef to discuss qualifications with.
- 2 You're looking for someone to fix your heating system at home.

**You are a shop assistant and a volunteer firefighter.**

- 1 You run the shop's social media accounts. You'd like some advice about writing more interesting posts.
- 2 Your colleague is selling a car and you would like to buy it. However, you would like a professional to check the car first.

**You are a part-time chef, but you would like to get more work.**

- 1 You can't use your washing machine because the pipes need repairing. You need to find someone to fix them.
- 2 You would like to meet someone else in part-time work to compare experiences.

**You were out of work for a while, but you are now a part-time gardener.**

- 1 You are looking for someone to repair your car.
- 2 You have an interview for a part-time job in a shop and would like some advice from a shop assistant.

**You are a successful full-time musician who loves performing.**

- 1 You are looking for someone to help you make decisions about money.
- 2 You are looking for a part-time chef to cook for parties and events.

**You are a financial consultant. You run your own company.**

- 1 You are looking for someone to be responsible for the office garden for about two hours a week.
- 2 You are interested in becoming a volunteer firefighter and would like to talk to someone with experience.

**You are a plumber.**

- 1 You are currently working for someone else, but you would like some advice about how to start your own company.
- 2 You are looking for someone to play music at your friend's wedding next month.

**You are a part-time journalist. You write for a local newspaper and you have your own blog.**

- 1 You are looking for a musician to interview about their profession.
- 2 You have a new home with a garden, and you would like some tips about growing your own fruit and vegetables.
