5 Read the text about someone who makes videos. Match the headings (1–4) with the paragraphs (A–E).

0 What motivates Aisha to do her vlog? **B**

1 How is the life of a vlogger?

2 What makes Aisha's vlog different?

3 What's the secret of Aisha's success?

4 How long does it take Aisha to make a vlog?

 / 4

The life of a vlogger

A vlogger is someone who posts short videos on social media sites. You've probably heard about the famous ones – the millionaire teenagers who live like rock stars – but there are thousands of "normal" vloggers out there, too.

A

Aisha has spent the last two years creating an English language vlog with a **difference. She invents characters and funny situations to present the** language. What makes it even funnier is that she plays the part of all the **characters and uses clever editing so they appear on screen together.**

B

You might think people make vlogs to get rich or famous. However, the **reality is that many vloggers, like Aisha, earn very little. The main** reason for doing her vlog is that she loves the process of creating it. Of **course, she likes helping people learn English, but what she likes most** is acting out the scenes and editing the clips.

C

Aisha's vlogs usually last about four minutes, but she spends much longer making them. The hardest part is coming up with original ideas – this **can take days. She never prepares a script for her characters so she** makes up the words while she's acting. This saves a little time, but editing **and uploading the video can take hours.**

D

Although Aisha's got thousands of followers, she doesn't earn enough to live **on. That's why she has another job in a language school where she** teaches English. Because of that, she ends up working late into the night. **You might think she's living the dream, but she works a lot harder than** you might expect.

E

Aisha thinks there are several reasons why her vlog is successful.

Firstly, she's got a big community of followers who share her clips with their **contacts. If she didn't have all those followers, her audience would be** much smaller. She's also worked out that she is able to entertain them and **that's exactly what they want.**

6 Read the text again. Circle the correct answer (A or B).
