

## 5.2 ➤ Grammar

**1** Work in pairs and decide who is 'X' and who is 'O'.

- Take turns to roll the dice and choose a square which corresponds to the number on the dice (see the bottom of the page).
- Change the sentence using a participle clause, then complete it.
- If you are correct, put your X or O in the square.
- Continue the game until one of you has 'won' four squares in a row. If you roll a 6, you can choose any sentence which is still free.
