

The Park

Look at the picture. Talk about what is going on.

- What place is shown in the picture? Is there a place like this near where you live?
- What do people do at the park?
- Why do people enjoy spending time at the park?
- Why might people prefer to walk their dogs in the park rather than along the street? Explain your answer.
- Imagine you have just finished eating your bar of chocolate at the park. What will you do with the wrapper?
- What do builders and gardeners put in parks to make people enjoy spending time in them?
- What animals might you find in a park? What habitats or homes do they live in?
- When the weather is wet and cold, what might the park be like? Can you describe how the picture might change?
- What might you smell when you visit the park? Where might they be coming from and what would they be like?
