

# Parent Guide

## How can I use this with my children?

Use these cards as a visual reminder to reinforce the concept of number and how numbers are written as words. You could make them into 'number bunting' or stick key numbers on the fridge door.

## How does this help my children's learning?

In year 1 (ages 5 to 6), your child will learn how to spell the numbers 0 to 20 as words. These flashcards are a memorable visual aid to help your child consolidate and remember these spellings.

## Ideas for further learning:

Create a set of cards with the numbers 0 to 30 written on one set and the words zero to thirty written on the other. Shuffle them and place them face down. Play a memory game matching words to numbers.
