

Christmas Board Game

You will need:

- Christmas Tree Playing Boards
- Christmas Tree Baubles and Star
- Star Question Cards
- A counter for each person
- Dice

Before you play:

- This is a game for 2 to 6 people.
- The aim of this game is to decorate your Christmas tree by collecting the different coloured baubles. When you have collected all the baubles, answer a star question to get the star for the top of your tree. The first player to do this wins.

How to play:

1. Decide who will go first. It could be the youngest player, or you could all roll the dice and the person with the highest number goes first.
2. Roll the dice and move your counter along the board that number of squares.
3. Look at the square you landed on. Some squares are blank, but others tell you to pick a coloured bauble. If you already have that coloured bauble, don't do anything and the next player takes their turn.
4. When you have all of the coloured baubles on your Christmas tree, another player will ask you a question from a Star Question Card. If you get the answer right, put a star on your tree, you have won the game! If you get the question wrong, the next player takes their turn. The next time it is your turn, answer another question.
5. The first person to put a star on their tree win.
