Instructions for the teacher - "Contact Details" supplement.

1. Give out the sheets to all of the students - 1 sheet per student.
2. Explain that they need to find the other three people on their sheet and then complete the information on their sheet.
3. Have all the students stand up and mingle. If they match up with someone who has the same letter sheet (Student A, B, C or D) they must move onto another person.
4. Students should not show their sheet to their partners - they can only find out the information by asking questions.
